### New Rx Polarizer Service by May

May Optical Co., Inc., 32-38 62nd St., Woodside, N.Y., has introduced a service that will allow polarization of new or existing glass prescription lenses, whether multifocal or single vision. The service eliminates the need for special blanks. The firm says:

"A reduction of inventory problems, as well as the new method employed to polarize the lenses, contributes much toward making a wider market for polarized prescriptions than ever before. Lenses may also be returned without damage to their original clear state if ever desired in the future."

### Appointed to New Jersey Board

Governor Richard J. Hughes has appointed Joseph I. Walin of Paterson to a five-year term on the New Jersey State Board of Examiners of Ophthalmic Dispensers and Ophthalmic Technicians.

Mr. Walin has been in the optical field for the past 30 years. He is a member of the board of directors of the Society of Dispensing Opticians of New Jersey.

Officers of the board for the forthcoming year are: Eugene J. Anspach, Jr., president; Jess J. Wasserman, secretary, and George Brammer, treasurer.
